ACTION PLAN

Launch App

Booking App plan

$5,000
one-time

A customer booking app and admin panel, live on both app stores.

WHO IT'S FOR

Transport, shuttle and booking-based businesses that take bookings by form, phone or WhatsApp today and want customers to book and track trips in their own app.

WHAT YOU GET

A customer app for Android and iPhone with instant fares, booking and quote requests, plus a web admin panel where your office confirms bookings, assigns drivers and edits rates.

What's included

Deliverable	What it means
Customer app for Android and iPhone	Built in Flutter: home, services, fleet and rates, booking, quotes, My Trips and support.
Sign-in	Phone number with a one-time code, or Google sign-in.
Booking with a live fare	The all-in price updates as the customer chooses vehicle, time, stops and extras.
Quote requests	A short form for services priced on request, such as events, tours or long contracts.
My Trips and push notifications	Booking status and alerts when a booking is confirmed or changed.
Call and WhatsApp in one tap	Customers reach your team from any screen.
Web admin panel	New bookings and quotes in one list; confirm, reschedule, cancel, assign drivers and edit rates without an app update.
Email alerts and basic reports	An email for every new booking; trips per day, revenue and top routes.
App Store and Google Play publishing	Store listings, screenshots, privacy forms, signed release builds and submission.

Step-by-step timeline

Week 1	Kick-off, screen plan and design of the main screens for your approval.
Weeks 1–2	Sign-in, home, services and fleet screens.
Weeks 3–4	Booking flow, live fare, quotes, My Trips and notifications.
Weeks 4–5	Admin panel, email alerts and reports.
Week 6	Testing on real phones, your review, App Store and Google Play submission.

What we need from you

- Google Play and Apple developer accounts in your company name ($25 one-time and $99 per year; we guide you through both)
- Your logo, brand colours and real photos of your vehicles, team or work
- Your services, rates, surcharges and the areas you cover
- The phone, WhatsApp and email address bookings should go to
- One person who can test the app and approve each milestone within 48 hours

Reporting

A weekly progress update with a test build you can install on your phone, and a handover document with logins, how to edit rates and how to publish updates.

How we measure success

A booking can be made in under a minute

Every booking reaches the admin panel and your email instantly

App approved and live on the App Store and Google Play

Price and terms

$5,000 one-time. 40% to start, 30% when you approve the test version, 30% when the app is live. App store fees (Google Play $25, Apple $99 per year) and hosting costs are paid from your own accounts.

Timelines start once we have your content, rates and account access. App Store and Google Play review times are set by Apple and Google and are added on top. You own the app, the source code and all accounts it runs on.
